ZIMMER BIOMET
Your progress. Our promise.®

Zimmer Biomet's innovative anchors are approved for a variety of repairs throughout the shoulder.

Rotator Cuff Repair

Quattro Link Knotless Anchors, 4.5mm, 5.5mm ^{519N*}

- Unique suture eyelet design allows for controlled tensioning
- Indicated to accept up to 8 suture limbs

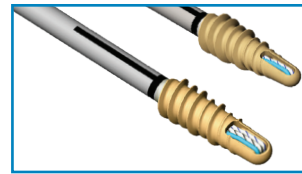

Quattro Suture Passers

- Reliable pass & retrieve feature (non-retrieving option available)
- Intuitive hand piece design offers smooth, consistent passing

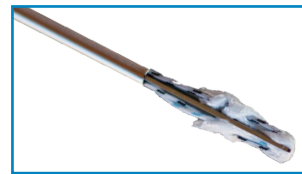

Quattro X/X3 Suture Anchors, 5.5mm, 6.5mm ^{447N/568N*}

- Drop-in anchor tip promotes effortless insertion
- 5.5mm available with 2 or 3 pre-loaded sutures

SureLock All-Suture Anchor, 2.2mm (double loaded) ^{472N*}

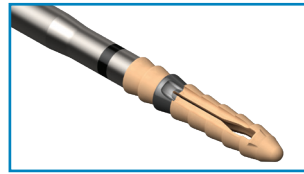

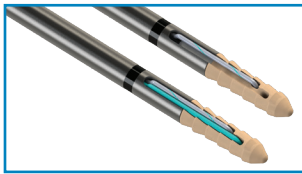

- Consistent, inserter-controlled deployment
- Strong fixation with minimal bone removal

Labral Repair

Quattro GL/GL2 Suture Anchors, 2.9mm ^{419N*}

- Bio-inert PEEK-OPTIMA® material
- Single and double loaded suture options

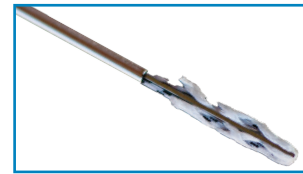

Quattro Link 2.9mm Knotless Anchor, 2.9mm ^{400N*}

- Individual tensiing provides exact approximation of labral bumper
- Secure suture cleat eyelet design

SureLock All-Suture Anchor, 1.4mm (single loaded) ^{322N*}

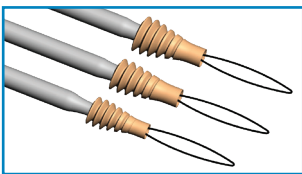

- Consistent, inserter-controlled deployment
- Soft anchor allows minimal bone removal in glenoid

Biceps Tenodesis

Quattro Bolt Tenodesis Screws, 5mm-9mm ^{400N*}

- Strong, tendon-in-socket fixation
- Smooth tip screw design preserves tendon integrity

Lock-Stitch® Suture Passing System

- Curved jaw design easily grabs and tags biceps tendon
- TRU-LOOP® suture creates a cinching stitch in one simple step
